

14 CFR 91.15 DROPPING OBJECTS

# Dropping Objects

Objects may be dropped from a civil aircraft only when reasonable precautions have been taken to avoid creating any hazard, such as injuring a person or damaging property.

## Dropping Objects In-Flight:

The PIC takes precautions to ensure that the object being dropped from a civil aircraft in-flight poses no hazard to persons or property, such as coordinating with the property owner of the drop site.

PIC allows an object to be dropped in-flight, that could be a hazard to persons or property.
